

## ARM10F, Regulator Single Unit Front Handle Type/For Bar Stock Manifold ARM10F-A-X201

Datasheet

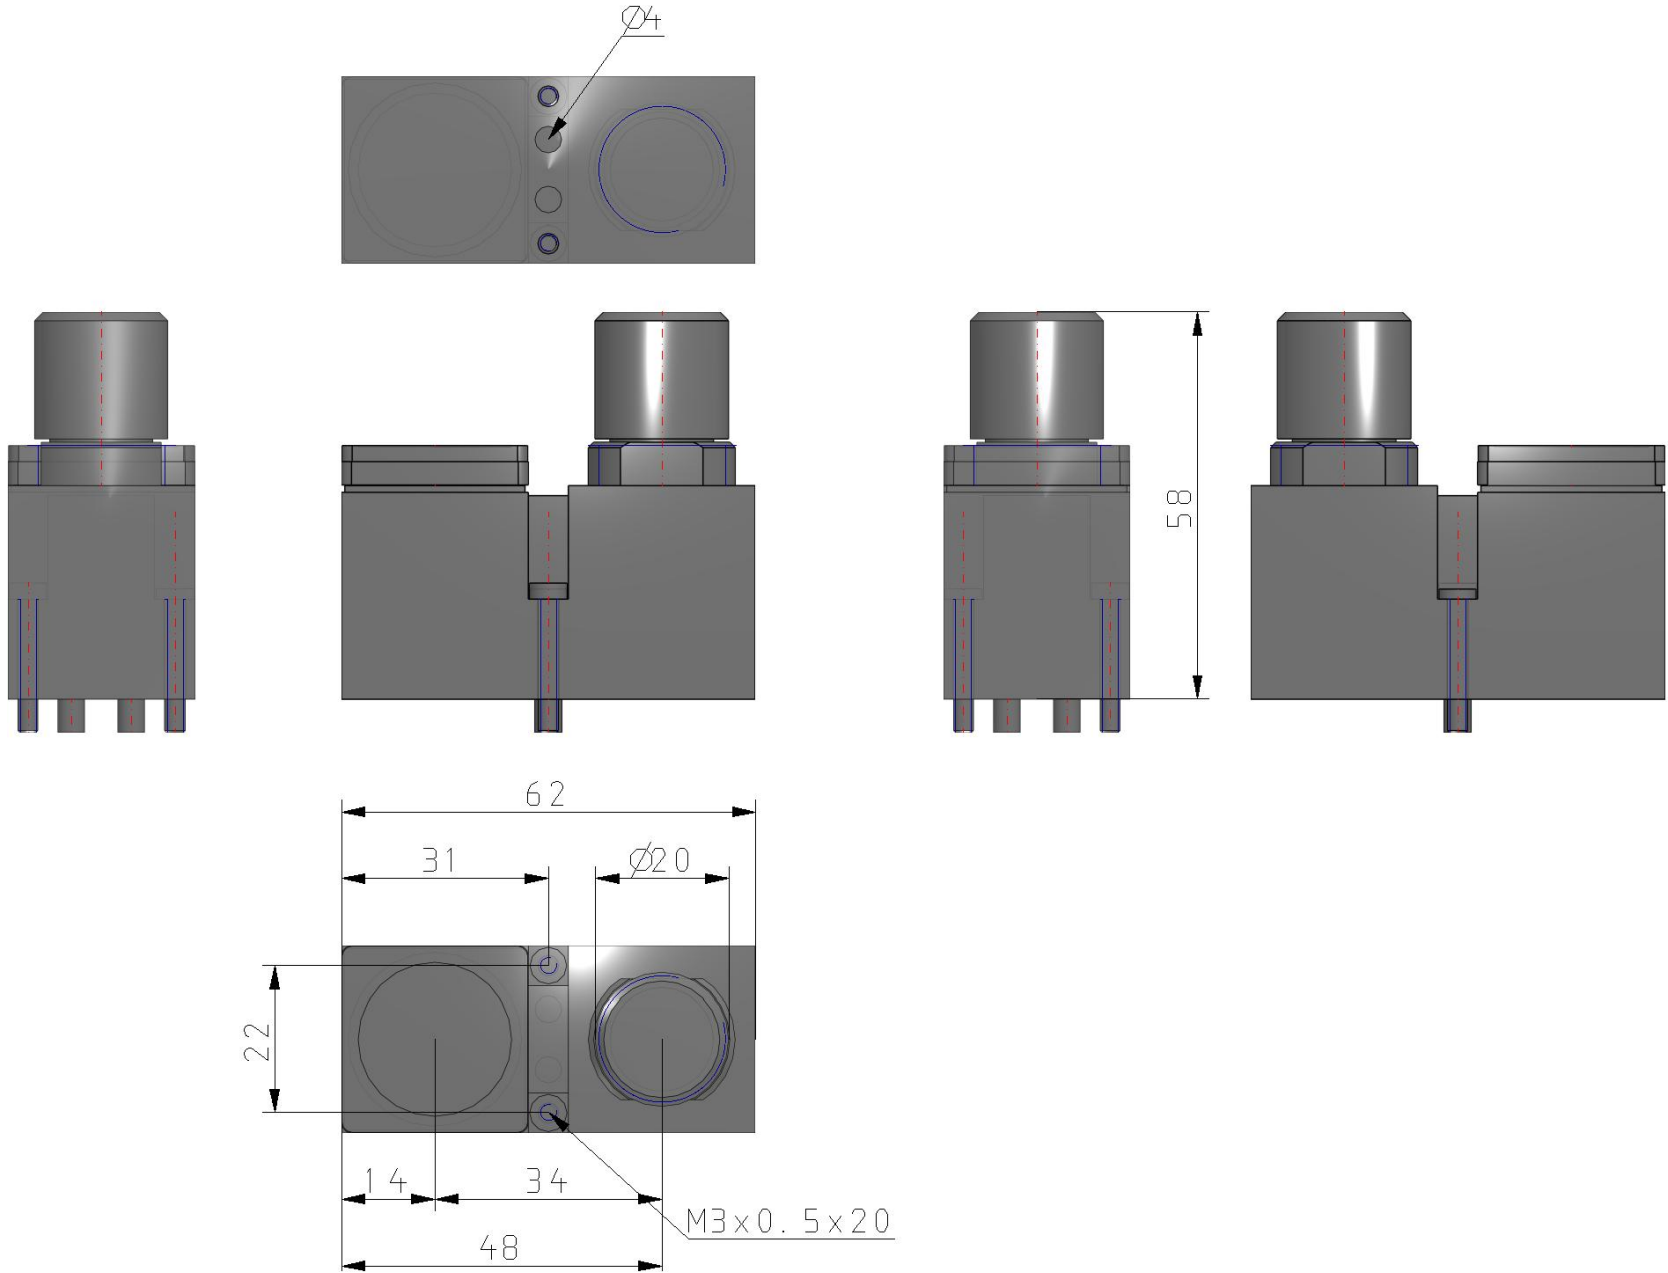

### General series information

- Regulator for manifold, front handle type.
- Accessories: pressure gauge.
- Options: 0.35MPa setting, non-relieving, oil free.
- NPN or PNP digital pressure switch output.

### Standard specifications

|                                |                                    |
|--------------------------------|------------------------------------|
| Accessory                      | A (With Pressure Display)          |
| Options                        | None                               |
| Unit Representation            | Name Plate and Pressure Gauge: MPa |
| Digital Pressure Switch Output | None                               |
| Weight                         | 0.072 Kg                           |
